13. Update of: LESSG Consolidation Project. – Daniel Smith briefly explained the consolidation's progress to date. The committee is getting close to the end of the evaluation. The LAFCO process has requirements for a consolidation or formation of a new district which is what we have been working on. All the departments that are involved in the formation have been regularly active in the process and has worked closely with LAFCo and our consultant to ensure that it is all being done correctly. There are many non-emergent calls that the fire departments are paged out to respond to that should go only to the ambulance service., Fire departments are not legally required to respond to these non-emergency calls. All parties involved are working on a better way to address these calls. Over the next six to eight weeks the LESSG committee will continue to meet and refine the evaluation prior to bringing it to the public for review and discussion.

Ashlee Sims asked when the meetings will be opened to the public for them to sit in. Daniel S. let her know that they will open to the public as soon as the final draft of the feasibility study has been finished. That is about 3 months away. Ashlee was also concerned about the funds that are paid to LAFCO by the homeowners of Portola. She wants to know if there will be more fees. Daniel let her know that the funds for the consolidation would be completely different than the LAFCO funds. The funds will be based off the type of property that is owned, land, commercial, residential, etc. Ashlee also asked regarding the boundary lines of the prospected consolidation. Daniel let her know that LAFCO has been involved with the boundary and it is still being evaluated.

Daniel Greenwood asked if the fire insurance rates will go down or up with a consolidation. Daniel Smith let him know that at this time there is no evidence it will go up or down however if a property is not annexed into a specific area the rates for fire insurance may be more. There is still talk on this specific subject as well.

Executive Summary

Public safety agencies and local government organizations today face challenges of keeping personnel safe and healthy, reducing risk and maintaining a positive reputation. Add to that the dynamically changing legislative landscape and evolving best practices, and even the most progressive, forward-thinking departments can struggle to keep up.

Lexipol's solutions are designed to save you time and money while protecting your personnel and your community. Our team consists of professionals with expertise in public safety law, policy, training, mental health and grants. We continually monitor changes and trends in legislation, case law and best practices and use this knowledge to create policies, training, wellness resources and funding services that minimize risk and help you effectively serve your community.

Our customers choose Lexipol to make an investment in the safety and security of their personnel, their agencies and their communities. We help agencies address issues that create substantial risk, including:

Constitutionally sound, up-to-date policies are the foundation for consistent, safe public safety operations and are key to reducing risk and enhancing personnel and community safety. Lexipol's comprehensive policy manual covers all aspects of your agency's operations.

- More than 155 policies researched and written by public safety attorneys and subject matter experts
- Policies based on State and federal laws and regulations as well as nationwide best practices

Daily Training Bulletins (DTBs)

Even the best policy manual lacks effectiveness if it's not backed by training. Lexipol's Daily Training Bulletins are designed to help your personnel learn and apply your agency's policy content through 2-minute training exercises.

- Scenario-based training ties policy to real-world applications
- Understanding and retention of policy content is improved via a singular focus on one distinct aspect of the policy
- Each Daily Training Bulletin concludes with a question that confirms the user understood the training objective
- Daily Training Bulletins can be completed via computers or from smartphones, tablets or other mobile devices
- Reports show completion of Daily Training Bulletins by agency member and topic

Policy Updates

Lexipol's legal and content development teams continuously review state and federal laws and regulations, court decisions and evolving best practices. When needed, we create new and updated policies and provide them to your agency, making it simple and efficient to keep your policy content up to date.

- · Updates delivered to you through Lexipol's web-based content delivery platform
- Changes presented in side-by-side comparison against existing policy so you can easily identify modifications/improvements
- Your agency can accept, reject or customize each update

- Efficient distribution of policies, updates and training to staff
- Archival and easy retrieval of all versions of your agency's policy manual
